We discussed item 11 from the ILC course criteria. The current understanding of that criterion is that the assessment instrument must be 20% of the course grade, but courses can opt to use only part of the assessment instrument for their data reporting. There were some reservations about this and questions about what the minimum subset of the assessment instrument would be acceptable to use to evaluate the proficiency.

Voted and approved both with modifications.

VII. Adjournment – Adjourned at 2:30.
